DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see p. 13-16, filed 10/2/06, with respect to claims 1-69 have been fully considered and are persuasive. The rejections of claims 1-69 have been withdrawn.

Allowable Subject Matter

2. **Claims 1-69** are allowed.
3. The following is an examiner's statement of reasons for allowance:
4. **Claim 1** is allowed because the prior art fails to teach or suggest initiating audio capture at a fixed time from when a second state change is detected. The prior art teaches the use of time codes and network clock synchronization to achieve synchronized mixing at a remote location, but it does not teach or suggest a local synchronization step as claimed.
5. **Claims 2-9 and 68** are allowable because they depend on claim 1.
6. **Claim 10** is allowable for similar reasons as claim 1. The prior art does not teach or suggest detecting, by the synchronization program, a second state change indicating the start of audio playback and beginning recording of a user's performance in response to said state change.
7. **Claims 11-20 and 61-62** are allowed because they depend on claim 10.
8. **Claim 21** is allowable for the same reason as claim 1.
9. **Claims 22-29** are allowed because they depend on claim 21.
10. **Claim 30** is allowable for the same reason as claim 10.

11. **Claims 31-40 and 63-64** are allowed because they depend on claim 30.
12. **Claim 41** is allowable for the same reason as claim 1.
13. **Claims 42-49 and 69** are allowed because they depend on claim 41.
14. **Claim 50** is allowable for the same reason as claim 10.
15. **Claims 51-60 and 65-67** are allowed because they depend on claim 50.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
